

The 1,137,863 represents 3 months of searches of what looks like 'regular use' across UEN user accounts. The word cloud above represents the most frequently searched terms during the 3 rolling months on the UEN account, UETN account and all accessing accounts. This also represents use for July, August and September where summer use can dip lower due to the summer break and the beginning of the new semester.

Top 100 Search Terms for UEN as queried by users:

soccer	ancient india

Monitoring Searches Summary update:

In looking at the most searched terms over the past 3 months, it appears to be of normal school use and for what seems to be student research.

Filter monitoring

EBSCO will continue to monitor the filter and make adjustments as needed including adding new terms on an ongoing basis (daily monitoring terms.) New terms added to the filter can take up to 24 hours to be filtered through the content within EBSCO databases. We continue to monitor and tweak our curation methodologies, so that valuable research content is available to users and developmentally inappropriate content is suppressed. At any time, we welcome any suggestions that might further advance this effort.

Ongoing Action Items:

- Update Quarterly Report as requested by UEN
- Continue to monitor accounts and searches in schools throughout Utah.
- Communicate with each group of stakeholders should anything change.
