

PIG IN A BLANKET EVALUATION **

Name _____ Period _____

The PIG IN A BLANKET lab is a graded activity during which the teacher will evaluate the **students' learning of laboratory equipment and procedures** not on the product. Students will work in small groups in assigned units to prepare a food product. Their cooperative learning experiences will be evaluated and the resulting score will count as part of the term grade.

PROCEDURE

The teacher will demonstrate making **PIG IN A BLANKET**. After preparing the required lab sheet students will repeat the demonstrated process during the next class period according to previously explained laboratory rules.

Both student and teacher will grade the lab experience according to the following criteria:
(10 points possible for each behavioral expectation)

Student

Teacher
