Shape Detective Clue Cards

1.

I am a shape. I have **3** sides. I have **3** angles and **3** vertices. What am I?

2.

I have no angles. I have no faces. I am round. What am I?

3.

I am a shape. I have straight sides. I have **4** sides and **4** angles. Two of my sides are not as long as the others. What am I?

4.

I am a shape. I have no sides, angles, or vertices. I am round. What am I?

5.

I am a three-dimensional shape. I have **8** vertices and **6** sides. Each of my sides are exactly the same. What am I?

6.

I am a shape. I have **4** equal sides. I have **4** angles and **4** vertices. What am I?

7.

I am a three-dimensional shape. I have a circle at one end and a point at the other end. What am I?

8.

I am a shape. I have **6** equal sides. I have **6** angles and **6** vertices. What am I?

9.

I am a shape. I have **4** sides. I have **2** parallel sides. The sides are not the same. It has **4** angles and **4** vertices. What am I?

10.

I am a shape. I have **5** equal sides. I have **5** angles and **5** vertices. What am I?
