

Magic Box

Powerful One goes into the magic box and transforms into a fraction with the same numerator and denominator—it still equals 1! Complete the worksheet.

1. $\frac{2}{3} \times \text{[Magic Box]} = \frac{\quad}{9}$	2. $\frac{4}{5} \times \text{[Magic Box]} = \frac{\quad}{10}$	3. $\frac{1}{4} \times \text{[Magic Box]} = \frac{\quad}{12}$
4. $\frac{1}{2} \times \text{[Magic Box]} = \frac{\quad}{10}$	5. $\frac{1}{3} \times \text{[Magic Box]} = \frac{\quad}{6}$	6. $\frac{3}{4} \times \text{[Magic Box]} = \frac{\quad}{8}$
7. $\frac{1}{3} \times \text{[Magic Box]} = \frac{\quad}{9}$	8. $\frac{1}{2} \times \text{[Magic Box]} = \frac{\quad}{8}$	9. $\frac{2}{5} \times \text{[Magic Box]} = \frac{\quad}{1}$
10. $\frac{3}{4} \times \text{[Magic Box]} = \frac{\quad}{12}$	11. $\frac{1}{2} \times \text{[Magic Box]} = \frac{\quad}{6}$	12. $\frac{2}{3} \times \text{[Magic Box]} = \frac{\quad}{7}$
