Mixed Numbers
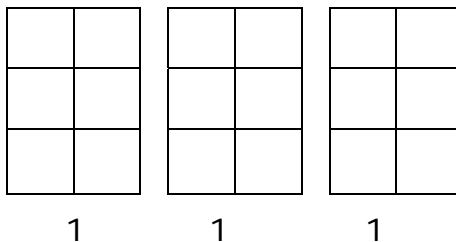

Name _____
Date: _____

Shade, sketch, and answer each question. Then, use an algorithm to find the answer.

1. How many $\frac{1}{6}$ is $2\frac{5}{6}$?

1   1   1

2. How much is $\frac{43}{12}$?

1   1   1   1

3. Sketch $\frac{10}{4}$. What mixed number is $\frac{10}{4}$?

4. What fraction is $3\frac{2}{3}$? Sketch this, showing each whole divided into thirds.
