

# Linear Relations Using Tables, Equations and Graphs

Name \_\_\_\_\_

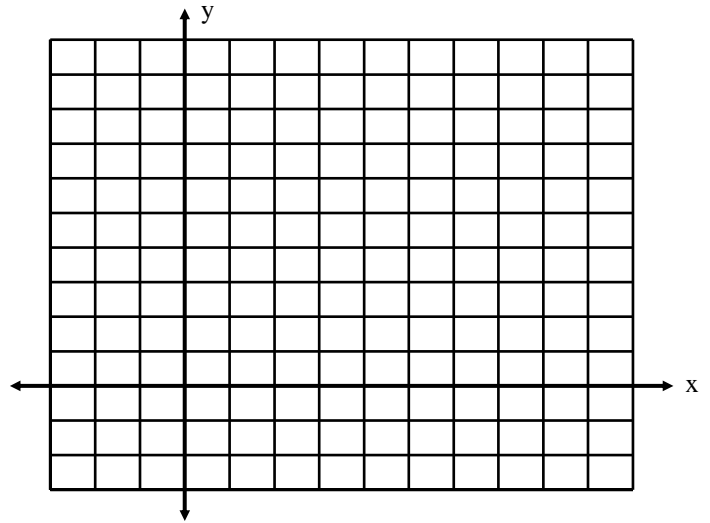

Date \_\_\_\_\_

Make a table showing six ordered pairs for each relationship shown by your teacher. Write an equation to model the pattern for the relation. Then, plot the ordered pairs and sketch the linear relationship.

1.

X	Y

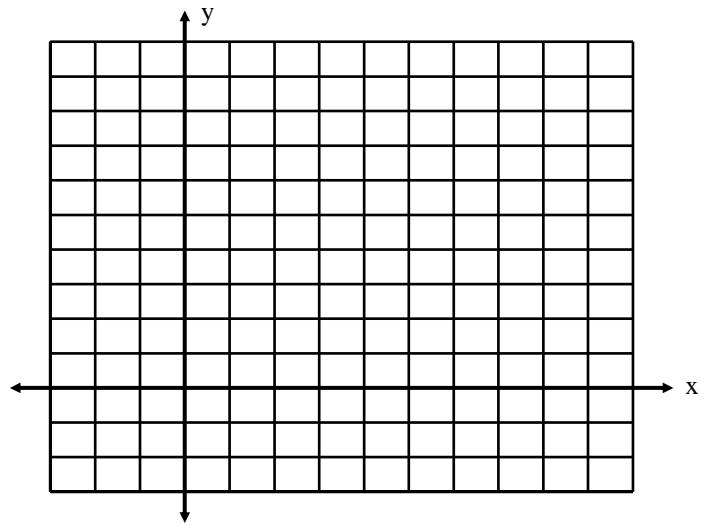

Equation:

2.

X	Y

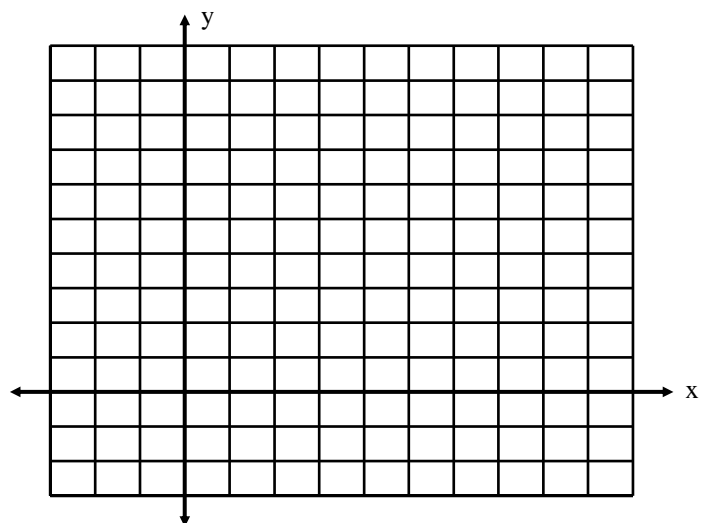

Equation:

3.

X	Y

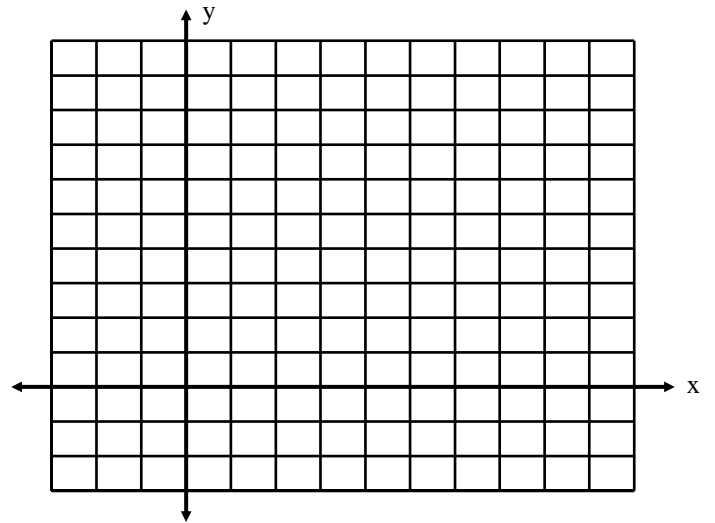

Equation:

4.

X	Y

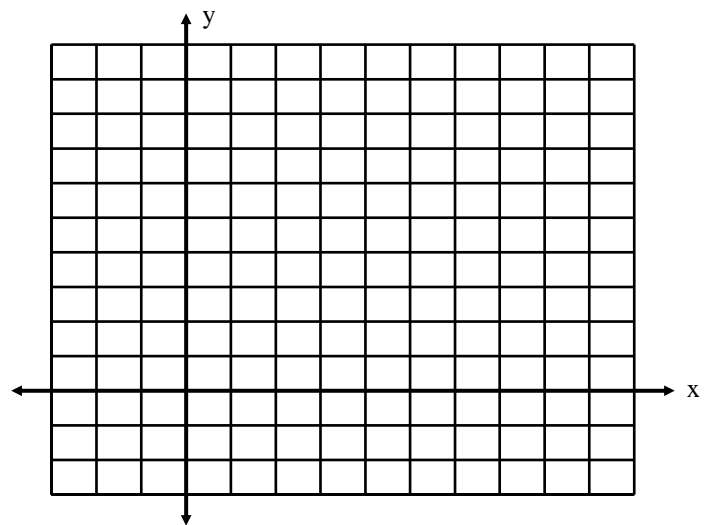

Equation:

5.

X	Y

Equation:

6.

X	Y

Equation:
