

WHY IS TEENAGE SEX GOOD OR BAD

STEP #1

Discuss with students: "Why do teenagers have sex?" List all ideas on the chalkboard. Be sure to include the following:

- physical attraction
- it feels good
- rape or incest
- pressure
- to prove love
- to prove adult status
- rebellion
- curiosity
- love
- want to get pregnant
- drunk or high
- escape
- it just happened
- got carried away

(As a suggestion is made, ask students to clarify or explain their ideas, but do not pass judgement on what is said.)

STEP #2

After all suggestions have been made, ask students to individually evaluate which reasons they think are poor reasons to have sexual intercourse.

STEP #3

Discuss as a class why each idea is valid or invalid.
