Scenario #2

Vanessa is at a party with several of her friends. There are a lot of cute guys there from a local college. She has had a few drinks and begins to flirt with Larry, one guy she finds very attractive. Larry gets her another drink, and they dance and talk with one another. She notices that Larry likes to tease people and act competitive with his friends. Larry offers to give Vanessa a ride home, and she agrees even though she has promised her parents she'll ride home with her friends. Larry doesn't take her right home immediately. Instead, he goes to a well-known "make out" spot. Vanessa is very uncomfortable and asks Larry to take her home. Larry starts to tease her saying, "What's the matter baby, are you scared? You've been flirting with me all night. I know you want it as bad as I do." Larry rapes Vanessa.

Scenario #3

Mitch and Kim have been going out for six months. Two months ago, they had sex a couple of times. Kim never felt right about it. She told Mitch she really liked him and wanted to continue going out but didn't want to have sex any more because she was scared she'd get pregnant and that her parents would find out. Mitch really liked Kim and said okay, but he really believed that if he just pressured her a little, she would have sex with him again. One night, after a ball game, they go back to his house for pizza. Mitch's parents are out for the evening, and Mitch sees his chance. He starts kissing Kim and trying to undress her. Kim says, "No, I don't want to do this." Mitch says, "What's the big deal? We did it before. My friends will think I'm a sissy if I let you say no." Mitch has sex with Kim. Kim feels raped.
