Parenting Styles Worksheet

“Will you have the same parenting style and point of view about parenting as your future spouse?”

Write down how you would react to the following parenting situations. Think about how you would really handle this situation, not how you think others would want you to handle it.

- 1) Your four-year old uses inappropriate language in front of others.

- 2) Your seven-year old brings home their friend’s toy that they like without their friends permission.

- 3) Your fifteen-year-old teenager wants their curfew changed to midnight.

- 4) Your twelve-year old refuses to do their household chores.

- 5) For the third straight month your sixteen-year old has gone over their cell phone minutes and the expense is more than you can afford.
