Values Auction

Get into groups of 4-5. Pick someone to be the group leader. Pretend that you have 5,000.00 to spend in an auction where the only things to buy are values. When your group leader “opens the bidding” you can use that money to purchase any of the following values that are important to you. Remember, once you have spent your 5,000.00 you can no longer buy any of the remaining values.
