ATMOSPHERE

Lighting strikes! Nitrogen gas is made into a solid & travels to **SOIL**.

ATMOSPHERE

Bean plants (legumes) extract you from the air and bring you to the **SOIL**.

ATMOSPHERE

Blue green algae and nitrogen-fixing bacteria convert you into a solid bringing you to the **SOIL**.

ATMOSPHERE

Lighting strikes! Nitrogen gas is made into a solid & travels to **SOIL**.

ATMOSPHERE

Bean plants extract you from the air and bring you to the **SOIL**.

ATMOSPHERE

Blue green algae and nitrogen-fixing bacteria convert you into a solid bringing you to the **SOIL**.

SURFACE WATER

You are just the sort of nitrogen that a plant needs to live. You are now within a LIVE PLANT

SURFACE WATER

You percolate deep underground into GROUNDWATER

SURFACE WATER

You travel through the rivers and streams to the OCEAN.

SURFACE WATER

You are just the sort of nitrogen that a plant needs to live. You are now within a LIVE PLANT

SURFACE WATER

You percolate deep underground into GROUNDWATER

SURFACE WATER

You travel through the rivers and streams to the **OCEAN.**

RAINWATER

You fall into a lake or stream so now you are part of SURFACE WATER.

RAINWATER

You rain into the **OCEAN**.

RAINWATER

You fall on the land and become part of the **SOIL**.

RAINWATER

You percolate deep underground into

GROUNDWATER

RAINWATER

You rain into the **OCEAN.**

RAINWATER

You fall on the land and become part of the **SOIL**.

GROUNDWATER

The groundwater you are dissolved in travels and you become part of SURFACE WATER.

GROUNDWATER

The groundwater you are dissolved in travels and you become part of SURFACE WATER.

GROUNDWATER

The groundwater you are dissolved in travels and you become part of SURFACE WATER.

GROUNDWATER

The groundwater you are dissolved in travels to become part of the **OCEAN**.

GROUNDWATER

The groundwater you are dissolved in travels to become part of the **OCEAN.**

GROUNDWATER

The groundwater you are dissolved in travels to become part of the **OCEAN.**

FERTILIZERS

You dissolve and wash into the SURFACE WATER.

FERTILIZERS

You are just the sort of nitrogen that plants need to live. You are now inside a LIVE PLANT.

FERTILIZERS

You become part of the **SOIL**.

FERTILIZERS

You dissolve and wash into the SURFACE WATER.

FERTILIZERS

You are just the sort of nitrogen that plants need to live. You are now inside a LIVE PLANT.

FERTILIZERS

You become part of the **SOIL**.

SOILS

You dissolve and wash into **GROUNDWATER**

SOILS

Bacteria have transformed you into nitrogen gas and you are now part of the **ATMOSPHERE.**

SOILS

You dissolve and wash into SURFACE WATER.

SOILS

You are just the sort of nitrogen that plants need to live. You are now inside a **LIVE PLANT.**

SOILS

You are just the sort of nitrogen that plants need to live. You are now inside a **LIVE PLANT.**

SOILS

Bacteria have transformed you into nitrogen gas and you are now part of the **ATMOSPHERE.**

OCEAN

Look out! Water is on the move. You have washed into GROUNDWATER

OCEAN

You are just the sort of nitrogen that plants need to live. You are now inside a **LIVE PLANT.**

OCEAN

You are just the sort of nitrogen that plants need to live. You are now inside a **LIVE PLANT.**

OCEAN

Bacteria have transformed you into nitrogen gas and you are now part of the **ATMOSPHERE.**

OCEAN

Bacteria have transformed you into nitrogen gas and you are now part of the **ATMOSPHERE.**

OCEAN

Bacteria have transformed you into nitrogen gas and you are now part of the **ATMOSPHERE**. The animal that you are a part of has died. Go to DEAD PLANTS & ANIMALS.

The animal that you are a part of has died. Go to DEAD PLANTS & ANIMALS.

The animal that you are a part of has died. Go to DEAD PLANTS & ANIMALS.

LIVE ANIMALS

Congratulations!
The animal that you were within has excreted and you are in its waste. Go to ANIMAL

LIVE ANIMALS

Congratulations!
The animal that you were within has excreted and you are in its waste. Go to ANIMAL

LIVE ANIMALS

Congratulations!
The animal that you were within has excreted and you are in its waste. Go to ANIMAL

ANIMAL WASTE Look out before someone steps in you! Now you are decomposing in the **SOIL**.

ANIMAL WASTE
What's that in the
water? You have
dissolved into
SURFACE
WATER.

ANIMAL WASTE
A farm supply
company has
picked you up and
made you into
FERTILIZER.

ANIMAL WASTE Look out before someone steps in you! Now you are decomposing in the **SOIL**. ANIMAL WASTE
What's that in the
water? You have
dissolved into
SURFACE
WATER.

ANIMAL WASTE
A farm supply
company has
picked you up and
made you into
FERTILIZER.

DEAD PLANTS & ANIMALS

You are decomposed and become part of the **SOIL**.

DEAD PLANTS & ANIMALS

You are decomposed and become dissolved in SURFACE WATER.

DEAD PLANTS & ANIMALS

You are decomposed and become part of the **SOIL**.

DEAD PLANTS & ANIMALS

Forest Fire! The wood you were in is burnt and you have been released into the **ATMOSPHERE**

DEAD PLANTS & ANIMALS

You are decomposed and become dissolved in the **OCEAN**.

DEAD PLANTS & ANIMALS

Forest Fire! The wood you were in is burnt and you have been released into the **ATMOSPHERE**

LIVE PLANTS

The plant that you are in has dies. Go to **DEAD PLANTS** & **ANIMALS**.

LIVE PLANTS

The plant that you are in has dies. Go to **DEAD PLANTS** & **ANIMALS**.

LIVE PLANTS

The plant that you are in has dies. Go to **DEAD PLANTS** & **ANIMALS**.

LIVE PLANTS

An animal has eaten the plant that you are in. Go to LIVE ANIMALS.

LIVE PLANTS

An animal has eaten the plant that you are in. Go to LIVE ANIMALS.

LIVE PLANTS

An animal has eaten the plant that you are in. Go to LIVE ANIMALS.
