Memory Grove EarthCache: GPS Data Table- A

“Earthcaching is the concept of treasure hunting for the caches that the Earth has stored. Earthcaches do not use stored containers - their treasure is the lessons people learn about our planet when they visit the site.” <http://www.earthcache.org/>

Briefly describe your observations at each mystery waypoint. Refer to the five themes of geography as you record your observations. Five Themes = **Location, Place, Human-Environment Interaction, Movement, and Region.**
