Critical Skills for 21st Century Learners

EverFi, Inc. is the leading education technology company focused on teaching, assessing, and certifying students in the critical skills they need to thrive. Our cutting-edge digital courses are provided at NO CHARGE to schools, via our partnerships with private-sector leaders and forward-leaning foundations and non-profits.

Financial Education

EverFi-Financial Literacy™

Recommended Grade Levels: 9th-12th

EverFi - Financial Literacy™ helps teenagers build the foundation for their future financial well being. This digital course covers core financial topics including everything from common account types to the basics of investing. Students are able to apply their learning in safe, virtual environments to weigh the consequences of their choices and practice good decision-making.

Vault-Understanding Money™

Recommended Grade Levels: 4th-6th

Vault - Understanding Money™ empowers students to be smart financial decision makers while they are early in their cognitive development. By leveraging performance-based games, *Vault* immerses students in real-life financial scenarios that focus on skill building and responsible decision making, covering everything from saving to making a budget.

Diversity & Inclusion

306-African-American History™

Recommended Grade Levels: 9th-12th

306 introduces students to African-American history in science, academia, music, and the arts via a compelling digital course. Through important primary texts and compelling vignettes, *306* communicates this history in a way that builds shared values and inspires today's youth to become tomorrow's leaders.

Commons-Digital Town Square™

Recommended Grade Levels: 8th-10th

Commons - Digital Town Square™ brings concepts of American Government and civic engagement to life with primary sources, engaging videos and exciting games. Covering topics ranging from the Bill of Rights to the branches of government, this course introduces students to the rights and responsibilities of citizenship, preparing them for a life of participation.

STEM (Science, Technology, Engineering, & Math)

Ignition-Digital Literacy and Responsibility™

Recommended Grade Levels: 6th-9th

Ignition-Digital Literacy and Responsibility™ educates students on the risks and rewards that technology can bring to their lives and empowers them with the skillset to leverage technology safely and effectively. The course informs students on both the “nuts and bolts” of how technology works and an introduction to STEM careers, while also placing them in virtual environments to tackle issues including privacy, security, cyberbullying, digital relationships, and the viral nature of the web.

Radius-STEM Readiness™

Recommended Grade Levels: 8th-11th

Radius - STEM Readiness™ is a course focusing on math, science, and engineering topics such as binary numbers, scientific notation, pythagorean theorem, and probability. Radius reinforces STEM thinking through real-world application of skills, all while exposing students to exciting career opportunities in these growing industries.

Future Goals – Hockey Scholar™

Recommended Grade Levels: 4th-7th

Future Goals - Hockey Scholar™ brings science, technology, engineering, and math concepts to life using the exciting, fast-paced game of hockey. Through immersive real-life simulations, students build their understanding of fundamental STEM concepts, such as geometric constructions, energy, and forces. In *Hockey Scholar*, each module is designed to build students scientific thinking and problem solving skills.

Career Leadership & Success

Venture-Entrepreneurial Expedition™

Recommended Grade Levels: 7th-10th

Venture - Entrepreneurial Expedition™ guides students through their personal journey to become an entrepreneur. While starting a food truck business, students learn to make informed business decisions about their product, pricing, hiring, marketing, and even their business pitch for a potential investor. At the end of *Venture*, each student leaves with their own e-Portfolio – a dynamic, visual representation of their personalized business plan and personal career goals.

Health & Wellness

Healthy Relationships

Recommended Grade Levels: 7th-9th

Healthy Relationships is an innovative digital course that uses evidence-based strategies to educate students on how to cultivate and maintain healthy relationships during their critical middle school years. It covers key concepts around positive character development, social emotional learning (SEL), and building healthy relationships. The course allows students to engage with true-to-life scenarios that include bystander intervention strategies and positive relationship examples.

EverFi Course Elements

Pedagogy based on the **Universal Design for Learning (UDL)** and **Teach for Understanding (TFU)** frameworks:

Engaging multi-media adaptive content for all types of learners

Pre, post, and formative assessments for evidence-based learning

Certificate-based skill development

EverFi is the leading technology platform that teaches, assesses, and certifies students in critical life skills. Our courses have touched the lives of over twelve million students.

Select Course Modules

What's the Difference Between Needs and Wants? - Whether it's food, rent, or internet, every household has many different expenses they must cover. How do you figure out which are the most important? In this activity, students explore the difference between needs and wants, and learn the importance of opportunity cost.

Borrowing and Credit - When you look at the price tag for a house or car, you may wonder: how will I ever earn enough cash to pay for that? The answer is, most people don't usually pay for these items in cash, but use credit instead. In this module, students learn how and when credit is used, and when it might be a smart financial decision.

Good and Bad Money Decisions - Some decisions are easier to make than others. When it comes to money, how do you evaluate which decision is a good one? In this activity, students look at real-life budgetary decisions, and explore what the consequences might be.

Classifying Needs vs. Wants

Quick Start Guide

› Register Your Instructor Account

- Go to www.everfi.com/register
- Click **Teacher** and enter your **state**.
- Search for your school name. Then click **Next** (Can't find it? Email scipriani@everfi.com and she will add your school immediately)
- Complete your profile and select your desired course from the dropdown menu.
- Agree to the **Terms of Service**, click **Next**, and you'll see the EverFi Dashboard!

› Set Up Classes/Student Registration Codes

- Find the course you want to use and click **Add Class**.
- Enter the class name (e.g. Period 1 – Grade 8) and all additional information.
- A class registration code will automatically generate, save under **Classes & Codes**, and be emailed to you. You'll need this code for the next step.
- Repeat this for all of your classes.

› Help Students Self Register

- Students visit www.everfi.com/login and click **Student/Learner**.
- Students enter class registration code you created and click **Next**.
 - Student usernames must be unique.
 - Student email addresses are NOT required.
- Click **Finished**, and get started!
- Students can enroll in multiple courses by entering additional codes in the **Add a Course** box on the upper right corner of their dashboards and clicking **Save**.
