

Environmental Ambassador

FCCLA STAR Events Information

(Students Taking Action with Recognition)

Environmental Ambassador, an individual or team event, recognizes participants who address environmental issues that adversely impact human health and well-being and who actively empower others to get involved. Participants will research one of the five current topics, investigate areas where they can make a difference, develop and carry out a stewardship project for their home, school, or community, and educate others in their school or community about the problems, effects, and solutions regarding the environmental concern. Participants must prepare a portfolio and an oral presentation. *Event is offered to members in the following categories: Junior (through grade 9), Senior (grades 10-12), Occupational (grades 10-12)*

Examples of Environmental Ambassador Projects:

"The Convertilizers - We became very concerned that a lot of the food in our school cafeteria goes to waste. We decided to compost the wasted food and use it to help the plants in our school garden to grow stronger. We want to encourage and promote the composting of leftover materials." Arkansas FCCLA Members

"Paving the Way for the Future - For our project, we wanted to focus on improving our city. We partnered with three community groups to better improve our community such as implementing bike lanes and creating a community garden. We wanted to change our city to encourage a healthy lifestyle." California FCCLA Members

"Protecting our Drinking Water – Using data from several tests that I did and based off of the geographical features of Southeast Minnesota and drinking water companies that reside there, we developed a project to inform others about protecting our drinking water." Minnesota FCCLA Members

"Recycling Caps - This project is mainly focused over the damage that plastic caps and lids have in the environment. To stop this we plan on recycling the caps and donating them to the Caps of Love charity. They have a contract with a recycling plant who will buy the caps. With the money they will buy and donate wheelchairs to children who need them the most." Texas FCCLA Members

"ICE POP (In Case of Emergency, Plan on Preparing) - Our project was emergency preparedness and it included designing a plan to help community members prepare for natural disasters that strike in the Central Jersey area. In addition to creating the plan, we went to various locations to explain to members of our community how our project could aid them in their daily lives." New Jersey FCCLA Members

Environmental Ambassador by the Numbers: 2017-2018

Participants Nationwide: 210 teams, 378 participants

Categories: Junior, Senior, Occupational

Type of Event: Foundational

Nationwide Impact: 65,047 people

88% of Environmental Ambassador participants indicated this event is extremely or very useful to their future.
