Creating a Fabric File

Stand 3: Students will examine the use of textiles in fashion.

- Standard 1: Identify basic fibers, the characteristics, use and care of each textile.

Performance Objective 5: Create a fabric reference guide consisting of natural/synthetic fibers and woven/knit fabrics.

- Complete the following chart about different types of fibers and fabrics. Write your responses in the space provided. Make sure to include a fabric swatch of each of these different types of fabrics.

Fiber	Fiber Source	Care Instructions	Intended Use	Sample of Fabric
Cotton				
Linen				
Silk				
Wool				
Nylon				

Polyester				
Acrylic				
Rayon				
Spandex				
Acetate				

- Include samples for a woven fabric, knit fabric, and felt fabric. Describe how each of these fabrics are made.

Woven	Knit	Felt
How is it made?	How is it made?	How is it made?
