GROWTH AND DEVELOPMENT

Select one age (newborn through 11 years-old) and complete this activity.

1. Gather information on the age you have selected, using at least three sources (class notes, text book, encyclopedia, CD ROM programs, etc.).
2. Prepare a class presentation that covers the following areas:
 - a. Development--What is happening to this child emotionally, physically, socially, and intellectually?
 - b. Medical care--When should the child see a doctor and have vaccinations?
 - c. Activities--What activities will help this child to continue to develop and grow?
 - d. Concerns--What types of things will parents and caregivers be concerned about?
3. You must prepare a visual aid for your class presentation representing the most important information from your report.
