- [student sheet for storybook](#)
(attached)

If doing a story:

- paper and pencil or computer
- [student sheet for story](#)
(attached)

Background for Teachers

Note about time needed: Picture Book-70-90 minutes, Story-50 minutes

Instructional Procedures

- Provide students with student sheet and explain rubric.
- Show students where materials are located.
- Allow time for students to work.
- Have students peer edit work in groups of two, using the rubric.
- Allow students to circulate their work and read other students work. You might wish to assign them small groups for this activity.

Assessment Plan

Scoring Guide

: Use the rubric found on the student worksheets and point scale of your choice.
