Introduction Macromolecule Functions

Summary

Students will fill out a comparison matrix investigating similarities and differences between the form and functions of macromolecules.

Time Frame

1 class periods of 60 minutes each

Group Size

Individual

Materials

 Comparison Matrix (attached)
biology books

Instructional Procedures

Students should compare the 4 macromolecules

They can use their books to help them

They should choose 4 categories for comparison.

Some examples may include: monomers, elements, functions, structure, examples.

Assessment Plan

Sample Scoring Guide:

Student chooses pertinent categories4 points
All information is filled in and accurate16 points
Similarities and Differences are analyzed8 points
Conclusions are drawn7 points
