Weighed Down: Finding Hope for Childhood Obesity
Friday, September 9 at 8:30 p.m.
This documentary takes viewers inside an innovative camp for overweight children where it’s not just about losing pounds but about gaining self-esteem and self-acceptance. They leave camp motivated - fully equipped with the tools to live happy, healthy and active lives.

Career Decisions: Nursing
Friday, September 16 at 8:30 p.m.
The program provides an invaluable guide to prospective nursing students. It covers how the modern nurse has become an integral part of the healthcare team, looks at what doctors and hospital administrators look for in their nursing candidates, reviews nursing school choices and finally paints a realistic picture of the rigors of nursing school.

A Path to Healing: Genomics and Disease Prevention
Friday, September 30 at 8:30 p.m.
We’ll meet patients who are receiving custom genomic therapies, often with dramatic results.

Substance Awareness Month - Neuroscience of Addiction
Fridays beginning September 2 at 8 p.m.
The series defines the brain’s role in addiction, how addictive behavior affects our brains, our lives and our culture.

Hooked: Tracking Heroin’s Hold on Arizona
Friday, September 2 at 8:30 p.m.
The film features heroin users, counselors and law enforcement agents struggling with this epidemic of addiction, which threatens a generation of young people, their families and friends.

Childhood Cancer Awareness Month - A Beautiful Remedy
Saturday, September 3 at 9 p.m.
The program asks and answers how the making and viewing of art help participants transform their social and physical realities.

Kids Rock Cancer
Friday, September 23 at 8:30 p.m.
Young musicians who are fighting cancer write and record original songs in their hospital rooms.

Mosaic: The Deep Eddy Mural Project
Sunday, September 18 at 7:30 p.m.
In 2011, Wanda Montemayor and a team including teachers, art therapists and students from all over Austin completed a hand made 1,200 square foot mosaic mural at historic Deep Eddy pool. Integrating art therapy with local workshops, Wanda and her team spent nearly four years planning, developing and creating each of the countless individual tiles that would become part of the colossal work of art. Mosaic: The Deep Eddy Mural Project takes us on a journey from inception through dedication and all the effort and love it took to make it happen.

Black Women in Medicine
Saturday, September 24 at 9 p.m.
The program chronicles stories of excellence and perseverance that engage, encourage and motivate, planting seeds of aspiration in the minds of future doctors. Black female pioneers in medicine and healthcare - including Dr. Claudia Thomas, the first black woman orthopedic surgeon and Dr. Jocelyn Elders, the first black woman to hold the position of United States Surgeon General - the program details the challenges these women have experienced and continue to face today in their drive to practice medicine.
