EdTechBooks: Creating Successful Graduate-Level Open

The EdTechBooks Process

- Identify gaps in graduate education open texts
- Involve diverse range of authors (research & practice)
- Include graduate students as editors, designers, creators
- Use peer review as needed

The ETB Technology

- Anyone can create an account; create books
- Easy WYSIWYG interface
- Integrate multimedia, web
- Add quizzes, surveys, translations, audio narration
- Peer review system
- Analytics show impact
- Export options to PDF/LMS/ePub (future)
