Booklet Printing Instructions

To print the booklets, use any color or black-and-white printer. Simply print the ODD pages first, then turn the printed pages over and print the EVEN pages on the back. It will print as a booklet with all the pages in the correct order. Fold and staple.

Printers are different, so you'll have to follow the instructions for your individual printer to get the pages in right for printing the backside. Some printers print on the "up" side, and others print on the "down" side. You'll also have to pay attention to the orientation of the paper for the top and bottom of the pages.

If you'd like the cover to be printed on a heavier and/or colored paper, insert one sheet on the top of the pile, as the cover is the first page to print.

If you're lucky enough to have a duplexing printer, simply print the booklet (ALL PAGES). Choose "flip on short edge," since the pages are in landscape mode.

Coloring Book Printing Instructions

To Print the coloring book, use any color or black-and-white printer. You may print individual pages of the coloring book, or you may print the entire book. If you print the entire book, print the odd pages first, then print the even pages on the back of the odd pages.
