It was also recommended that Laura be an advisor to this committee. The committee plans to have a next draft at the June meeting.
ADVISORY COUNCIL BUSINESS

1. **Report on Council membership** – Ray Walker also gave the board an update on the UEN Advisory Council. Ray walked through the spreadsheet that they created which includes the type of organization they would like on the advisory committee and it is matched up with the school that would volunteer the person for this committee. It was determined that this committee should also include a few non-voting, advisory only positions. It was suggested that they have representation from CenturyLink, WFN and URTA. The advisory committee will meet before the next meeting so the final names can be submitted for approval.

Financial

OPERATIONAL BUDGETS

1. **Public Ed recommendations on elementary connectivity criteria** (Brenda, Barry, Clark, Glen). Ray Walker reported to the board that this committee met on May 1, 2012 to discuss and determine priorities for the $450,000 annual ongoing network circuit funds. A summary of the recommendations is included in the attachment. The Head Start Schools were inadvertently left off of the criteria spreadsheet. Brenda and Lisa will work together to add the information to the spreadsheet prior to the next Board Meeting. This item was deferred to the June meeting.

2. **FY2013 Draft Budget** – Lisa Kuhn reported to the board the breakdown on the UEN FY2013 draft budget. E-Rate Support CIPA Compliance - Discussion/Action

Description
In order to comply with new requirements for federal E-Rate, UEN has drafted the following policy and designated NetSafe Utah as the service to meet new requirements. If adopted, UEN’s CIPA policy will govern all UEN Network E-Rate consortium members.

Recommendation
It is recommended that the UEN Board formally adopt the policy as outlined to maintain CIPA compliance for Utah schools, districts, and libraries.
Attachment – UEN’s Child Internet Protection Act (CIPA)  
Internet Safety Policy  
Effective July 1, 2012

The following Internet Safety Policy is adopted by the Utah Education Network (UEN) to address basic policy compliance requirements of the Children's Internet Protection Act (CIPA), which includes the recently enacted Protecting Children in the 21st Century Act elements, required for E-Rate funding. Schools and libraries adopting new or revised Internet policies may wish to expand or modify this policy language to meet broader policy objectives and local needs.

UEN's CIPA Internet Safety Policy requires public K-12 school and public library E-Rate consortium members to fully comply with FCC CIPA compliance measures as outlined in order to: (a) prevent user access over its computer network to, or transmission of, inappropriate material via Internet, electronic mail, or other forms of direct electronic communications; (b) prevent unauthorized access and other unlawful online activity; (c) prevent unauthorized online disclosure, use, or dissemination of personal identification information of minors; and (d) comply with the Children's Internet Protection Act.

Access to Inappropriate Material

To the extent practical, technology protection measures (or “Internet filters”) are available and in place, and shall be used to block or filter Internet, or other forms of electronic communications, or access to inappropriate information.

Specifically, as required by CIPA, blocking shall be applied to visual depictions of material deemed obscene or child pornography, or to any material deemed harmful to minors.

Subject to staff supervision and monitoring, technology protection measures may be disabled for adults or, in the case of minors, minimized only for bona fide research or other lawful purposes.

CIPA compliance requires documentation of the technology protection measure (e.g. bills from a service provider or filter logs) for at least five years after the last date of E-Rate funded service.

Inappropriate Network Usage

To the extent practical, steps shall be taken by Schools, Districts, and Libraries, to promote the safety and security of the users of the schools’ or libraries’ online computer network when using electronic mail, chat rooms, instant messaging, and other forms of direct electronic communications.

Specifically, as required by CIPA, prevention of inappropriate network usage includes: (a) unauthorized access, including so-called “hacking,” and other unlawful activities; and (b) unauthorized disclosure, use, and dissemination of personal identification information regarding minors.

Supervision and Monitoring

It shall be the responsibility of all School, District, or Library consortium members’ staff to supervise and monitor appropriate usage of online computer network and access to the Internet in accordance with CIPA policy guidelines.

Procedures for the disabling or otherwise modifying any technology protection measures shall be the responsibility of School, District or Library designated representatives.
**Education: For K-12 Schools and Districts only:** UEN has made available through NetSafe, a UEN service, age-appropriate online training videos for students who use the School’s or District’s Internet facilities. The training provided is designed to comply with the E-Rate educational requirements of CIPA and to promote a commitment to:

a) Student safety with regard to:
   i. safety on the Internet;
   ii. appropriate behavior while on online, interacting with other individuals on social networking websites, and in chat rooms; and
   iii. cyberbullying awareness and response.

Following receipt of this training, Schools or Districts will acknowledge with documentation or other proof that CIPA compliant Internet Safety training was provided. In addition, students are required to follow the provisions of the District’s or School’s Technology or Internet Acceptable Use Policies (AUP) or Responsible Use Policies (RUP).
