CMaP PROJECT

Project File/Title: VETERAN GRAVES OF AMERICAN FORK, UT Created by: Analee Carlin Wiser Class: St. George CMaP 2010

Project Description	This project is for 5 th grade Social Studies classes. Learning about local veterans in our community will enhance students to become more aware of how they are part of a world-wide system. We will mark waypoints for all of the Veterans in the American Fork Cemetery. We will also gather data from family, relatives, friends, etc. about the individuals. We will create a GIS file with the data from the Veterans buried (with the year died, war fought, whether the two coincide, etc.) Maps and files will be donated to the cemetery and the local VFW. GPS coordinates and brief descriptions will be available online on a website for any visitors. In addition, we will make a presentation at a Veteran's Day assembly for the school, honoring the veterans, with songs, stories and slides of the deceased. Families and friends of the Veterans will be invited to attend as well as be introduced at the assembly. An article in the local newspaper will share the news of this event as well as honor the local veterans buried.
Community Issue or Problem Selected -How project evolved?	This project addresses and need for those visiting the cemetery to easily find veteran's graves. This project will also help students understand the importance of our military personnel.
Community Partner(s)	The cemetery sexton, the local VFW, (Veterans of Foreign War), the Daily Herald News.
Project Objectives	Students will have a greater appreciation for their hometown veterans who have served in the wars they have studied about in class.
Utah Core Standards/Objectives	Students will understand how the exploration and colonization of North America transformed human history. *Including appreciation and understand for US war Veterans.
Essential Question(s) -Spatial Issue	Walking to the American Fork Cemetery from Forbes Elementary. Keeping the weather in mind. Showing respect to everyone who may be in the area.
Assessments (rubrics, scoring guides)	A rubric for data to be filled out with precision and clarity will be given to each student with a clipboard and a place to label and number their data, to coincide with their digital

	photography.
Project Products	Students will create a GIS file with the data on the veterans
	in it (year dies, war fought, whether the two coincide, etc.)
	Students will also take photographs of the graves. Maps and
	files will be donated to the cemetery and the local VFW.
	Additionally, the GPS coordinates, photos and brief
	descriptions will be made available online for any visitors.
Project Timeline	September: Acquire list of veterans from cemetery sexton,
(include a step by step	VFW. Put article in local paper asking for stories about
Procedures)	American Fork veterans.
,	October: Meet with individuals who respond to article
	mentioned above. Gather GPS coordinates, write up
	information, create maps and waypoints.
	November : Present information. Have follow-up publicity
	to review events.
Resources Needed	GPS units, computers with GIS installed digital cameras.
Skills Required	Digital photo taking skills, interviewing, writing for bios
	and journals and basic understanding of GIS.
