

WORLD CURRENT EVENTS

Name _____

Date _____

Students: We are studying world current events. World news must take place somewhere outside of the United States unless it overlaps into national news (e.g. like if a world crisis happens in the U.S.) News that is frightening, violent, or inappropriate in any way is not to be shared.

Parents: The purpose of this year-long activity is to help students learn to listen, watch, and learn what is happening around them in the community, state, and world. After watching the news with an adult, looking at approved KID NEWS internet sites, listening to the radio, hearing adults speaking about news, etc. students will choose something to share with the class. Please help your child be prepared for their assignment. Please contact me for any questions.
