Creating a Fabric File

Stand 3: Students will identify and analyze the characteristics and care of specific textiles used in sports and outdoor product industry.

- Standard 1: Identify basic fibers, the characteristics, use and care of each textile.

Performance Objective 3: Create a fabric file. Identify fiber content, care fabrication, and intended use.

- Complete the following chart about different types of fibers and fabrics. Write your responses in the space provided. Make sure to include a fabric swatch of each of these different types of fabrics.

Fiber	Fiber Content	Care Fabrication	Intended Use	Sample of Fabric
2-Way Stretch				
4-Way Stretch				
Canvas				
Flannel				
Leather				

Neoprene				
Polar Fleece				
Rib Knit				
Rib-Stop Nylon				
Sweatshirt Fleece				
Vinyl
