PREZI Tips

- 3 Major Components of a PREZI (*taken from PREZI tutorial *How to Create a Great PREZI*)
  - **Brainstorm:** Identify the components of what you are presenting (all of the information you want to share).
  - **Organize:** Group "like" ideas together to create structure in your PREZI. *Use the template or search for other PREZIs to decide how you want to organize it.*
  - **Direct:** Zoom in to illustrate ideas, and out to give an overview of what is being covered.
  - **The Squint Test:** While viewing the entire PREZI, squint to determine if your PREZI looks like a mess or is a "Sneeze" PREZI. While squinting, if you can determine the main idea of the PREZI, you have created a successful, interactive PREZI that will be beneficial to your student's learning.
