How do teachers use Blendspace?

Flipping the classroom

Easily find, add and share online content (videos, images, PDFs, Google docs). Students comment or take notes alongside content.

Student assignments

Research assignments. Web quests. Presentations. Students use Blendspace to practice and demonstrate 21st century learner skills.

Differentiated lessons

Personalize student learning with different online materials and built-in assessment.

Blendspace is the easiest way to blend your classroom with digital content. Learn more at www.blendspace.com.

Create and discover

1 Go to blendspace.com

2 Sign up as a teacher

3 Create a lesson
