

FACS Exploration Project  
Kitchen Appliances

Name: \_\_\_\_\_

You are a newly graduated high school senior. For your graduation present your parents have offered to give you \$200 to purchase kitchen appliances for your dorm room in college. Your dorm room has no appliances and your roommate cannot afford any. They ask you to give them information on what you are going to buy before they will give you the money. Please list the kitchen appliance you will purchase, the store you will get it from, the brand, price, and any additional specifications (color, model, size, etc.)

| Kitchen Appliance | Store | Brand | Specifications | Price |
|-------------------|-------|-------|----------------|-------|
|                   |       |       |                |       |
|                   |       |       |                |       |
|                   |       |       |                |       |
|                   |       |       |                |       |
|                   |       |       |                |       |
|                   |       |       |                |       |
|                   |       |       |                |       |

Total:

1. Why did you choose these appliances?
2. What are the pros of these appliances?
3. What are the cons of these appliances?
4. Were there any appliances you wanted but could not afford?
