

Retain Student Interest in STAR Events

- Involve them early enough - have them practice multiple times - get them motivated to work early.
- Make students have a time line for when they'll complete things - practice - practice - know how to stand.
- Each team needs different strengths and should set roles for needed strength (computers/organization etc.) - find right STAR Events to go with class and encourage them to later complete. Use the same rubric / criteria, highlight memories - show other classes - give recognition to kids involved - as a new area to be popular - show slides.
- Assign students not in FCCLA to ask FCCLA questions as a school assignment, assign all class to go, but only bring best kids - don't pit own kids against each other - better to narrow down to 1 or 2 - let kids use regular binder during semester but bring official one to State - target certain topics to certain classes.
- NAG them
- Officers Have to do a STAR Event.
- Overnight trips are fund! (Kids think it is exciting)
- Part of the curriculum.
- Put examples of STAR Events from State on the website.
- Pay in advance or lose money.
- Have students like the event - write down hobbies a line likes with the STAR Event.
- Remind that this is great for resume/college Application.
- If do well at area - gold - they get help with cost of State.
- Be available as a teacher for students to come in for help.
- Night before Area pizza party to get ready.
- State is a trip it is an incentive.
- Nationals is the motivation.
- Graphing students progress - checklist.
- Adviser is informed and can answer questions.

- You to be video - STAR Events - look up Utahfccla.org
- Pre-judging
- Mock judging - pair with a sister school to judge ite STAR Event Advisers of the opposite schools judge the event.
