Fashion Design

FCCLA STAR Events Information
(Students Taking Action with Recognition)

Fashion Design, an individual event, recognizes participants who apply fashion design skills learned in Family and Consumer Sciences courses to design and market clothing styles. Participants will develop a clothing label, research the intended audience, and design the label’s first six-piece collection. Students will exhibit knowledge of all the aspects that surround design, including design basics, fabric choice, and pricing. For competition, participants must prepare a portfolio, sample garment, and an oral presentation. Event is offered to members in the following categories: Senior (grades 10-12), Occupational (grades 10-12), Postsecondary

Project Connections

Examples of Fashion Design Projects:

“This project has positively impacted me because it opened my eyes and made me realize the business side of fashion and the requirements it takes to pursue this career. Also my family has grown fond of my ability to grow as an individual with this event.” Florida FCCLA Member

“My project is based around building a collection of clothes for rodeo queens. Most garments used for queening are very expensive and I want to be able to sell reasonably priced outfits. Finding clothing that fits well is very challenging and I want to provide clothes that fit well and are unique.” Kansas FCCLA Member

“I have created a four look collection under my label, Real. I have sewn one sample garment from this collection that I feel best showcases my skills as a designer. This garment was constructed by using a pattern that I developed myself. I feel this project is an accurate representation of my design aesthetic as well as a sample of what I have to offer the design industry.” Kentucky FCCLA Member

“Flatline is a product line that was inspired by the lines and contours of modern bridges. The unique lines and cutouts on each garment represent the modern, trendy woman who isn’t afraid of stepping outside her comfort zone.” Nevada FCCLA Member

“I designed a fashion line for children from the ages of 2-10. I designed a collection with outfits that are fit for any activity. My finished piece displays the individuality and creativeness that I want my entire collection to represent. I informed myself on the intended audience, retailers, pricing, and even my career path.” Oklahoma FCCLA Member

Fashion Design by the Numbers:
2017-2018

Participants Nationwide: 209
Categories: Senior, Occupational, Postsecondary
Type of Event: Career Focused
Nationwide Impact: 8,840 people

91% of Fashion Design participants indicated this event is extremely or very useful to their future.
