 - C - Federal
 - D - Georgian
- 100 - Which of the following is made of wood shavings, wood scraps and sawdust mixed together and pressed under heat?
- A - Wafer board
 - B - Particle board
 - C - Plywood
 - D - Veneer

Quiz

v. 56-3217

State Review B Answer Key

Multiple Choice

- 1 - In 1/4" scale, the width of a countertop measures 1/2 inch. How wide is the countertop?
D - **24 inches.**
- 2 - Which finish adds color to wood without covering the natural grain?
B - **Stain**
- 3 - The primary function of a window treatment is:
C - **To provide harmony in a room**
- 4 - Which light burns whiter and is the MOST similar to natural light?
A - **Halogen**
- 5 - Pedestal-based tables with curved legs and brass feet are typical of what period?
C - **Duncan Phyfe**
- 6 - When you buy wallpaper, all rolls should come from the same:
B - **Run number**
- 7 - The table with legs that can be swung out to support the table is called a:
C - **Gate-leg table**
- 8 - Which column style is the most decorative or ornate?
B - **Corinthian**
- 9 - How many sloping sides does a hip roof have?
B - **4**
- 10 - A porch with columns is a:
D - **Portico**
- 11 - The chair back of Duncan Phyfe furniture is characterized by the use of the:
A - **Lyre**
- 12 - Which one of the following chairs was introduced by Thomas Chippendale?
D - **Camelback**
- 13 - The closeness with which yarns are tufted, woven, or tied is the:
B - **Desity of pile**
- 14 - When choosing paint, choose a color that is:
A - **Slightly lighter than the color desired.**
- 15 - The MOST popular and LEAST expensive wall treatment is:

C - Paint

- 16 - An early chair with horizontal slats in the back is called:
A - **Ladderback**
- 17 - In which kitchen style will the most traffic patterns go through the work triangle?
B - **U-shaped**
- 18 - Pinch-pleated panels of fabric which can cover windows completely or be pulled to the sides are:
D - **Draperies**
- 19 - Adjustable ceiling/wall mounted lighting that often includes more than one fixture is:
A - **Track lighting**
- 20 - The flow of traffic in a room may effectively be controlled by the:
A - **Furniture placement.**
- 21 - Which of the following chairs was introduced by the Greek culture?
D - **Klismos**
- 22 - Columns were an especially significant feature of:
B - **Greek architecture.**
- 23 - The house style that resembles a haunted house combined with mansard roof is a:
B - **French**
- 24 - Which of the following is considered a full bath?
D - **Toilet, sink, and tub**
- 25 - Which one of the following floorings has a resilient surface and returns to its original shape after stress?
D - **Vinyl**
- 26 - The joint used for high quality furniture construction is:
B - **Tongue and Groove**
- 27 - Which of the following decorative motifs is used on Corinthian columns?
C - **Acanthus leaves**
- 28 - Which chair is characterized by using a shield back splat?
A - **Queen Anne**
- 29 - Which is the most durable wood for kitchen cabinets?
D - **Oak**
- 30 - What architectural feature demonstrates corners made of stone and adds decoration to the house?
D - **quoins**
- 31 - Which is the least expensive kitchen countertop?
B - **Formica/laminate**
- 32 - Which furniture was eclectic and used elaborate and fanciful designs rather than simple designs:
C - **Victorian**

- 33 - What window can be placed to the right or left of a door?
A - **Side Light.**
- 34 - Which architectural style is Thomas Jefferson associated with?
C - **Federal**
- 35 - The natural fiber that is very absorbent and warmer than all other fibers is:
A - **Wool**
- 36 - The chair back of Hepplewhite furniture is characterized by the use of the:
D - **Shield**
- 37 - The arrangement of wood floor pieces into geometric patterns is:
B - **Parquet**
- 38 - Which style of houses generally have gingerbread decoration on them?
D - **Victorian**
- 39 - The top decoration on a highboy is called a:
C - **Pediment**
- 40 - Which carpet weave will camouflage traffic paths:
A - **Frieze**
- 41 - What part of a set of blueprints is drawn to scale to show the upright version of the walls, height of windows, etc?
B - **Elevation plan**
- 42 - The Federal style can be distinguished by having:
B - **Windows on the first floor that are taller than windows on the second floor.**
- 43 - Which foot style is typically used on a Queen Anne chair:
C - **Claw and ball**
- 44 - Which one of the following is NOT contained in a set of blueprints?
C - **Landscape designs**
- 45 - Which weave would be the STONGEST for use in upholstered furniture?
B - **Basket**
- 46 - What type of lighting is a beam of light shining directly on a decorative object?
B - **Accent**
- 47 - Laminating a thin layer of wood over a less expensive wood makes:
A - **Veneer**
- 48 - What is an armoire?
B - **A French storage closet**
- 49 - The simplest form of weaving which produces strong, durable fabrics is:
B - **Plain**
- 50 - The springs used in better-quality upholstered furniture are:
A - **Coil**

- 51 - It is best to place large pieces of furniture:
C - **Parallel to the walls.**
- 52 - The window style that combines an arched center window with rectangular windows on each side is:
B - **Palladian**
- 53 - In a set of construction drawings, which one shows the location of the structure on the site?
A - **Plot Map**
- 54 - One way to check for sufficient padding is an upholstered piece is to:
D - **Sit on it to make sure you can't feel the frame through the fabric.**
- 55 - Which type of column is illustrated by circular scrolls at the top?
C - **Ionic**
- 56 - What joint is usually used in a high-quality chest of drawers?
D - **Dovetail**
- 57 - A decorative molding that divides a wall is:
B - **Chair rail molding**
- 58 - The kitchen work triangle consists of the:
C - **Sink, range, and refrigerator.**
- 59 - What is the decorative trim that forms part of the outside wall on a Victorian style house is called:
B - **Half-timbering**
- 60 - In which of the following house styles are dormer windows commonly used?
C - **Cape Cod**
- 61 - The architectural style that features half-timbering technique is a:
C - **Tudor/Elizabethan**
- 62 - The decorative process of spinning and shaping wood on a lathe, often used in Early American furniture styles, is called:
A - **Turning**
- 63 - The house style in which architectural features include irregular roof lines and a turret (pointed roof) is a:
B - **Victorian**
- 64 - The floor plan symbol that is drawn with a circle and three vertical lines represents the outlet required by an electric:
D - **Range**
- 65 - The house with a large portico and pediment with tall columns is an:
D - **Greek Revival**
- 66 - Which of the following should be considered when planning a furniture arrangement?
A - **All of these**
- 67 - Which architect was famous for designing a house upon a waterfall?
D - **Frank Lloyd Wright**

- 68 - What style is characterized by being plain and simple, emphasizing utility and displaying high-quality craftsmanship?
D - **Shaker**
- 69 - What fiber looks and feels MOST like wool?
A - **Acrylic**
- 70 - What is the BEST placement for a dishwasher?
B - **Near the sink**
- 71 - Which window treatments will be the MOST effective in reducing heat loss and heat gain?
A - **Blinds and shades**
- 72 - In what type of window can the top pane of glass be lowered and the lower pane be raised?
D - **Double-hung**
- 73 - The roof style that features a gable but with one side longer is a:
C - **Salt Box**
- 74 - Which weave forms a diagonal line and a strong, durable fabric?
B - **Twill**
- 75 - Many of Frank Lloyd Wright's residential designs are characterized by:
D - **Horizontal lines, low-pitched roofs with overhanging eaves.**
- 76 - Which of the following kitchen types is generally considered the MOST efficient?
C - **U-shaped**
- 77 - The illustration of a floor plan symbol that shows two sides of a door and slides back and forth is:
D - **Sliding doors**
- 78 - Which kitchen style is the MOST economical and most suitable for apartments and small living spaces?
A - **Parallel/corridor.**
- 79 - Which leg style has an outward curve at the top and ends with a ball and claw foot?
A - **cabriole**
- 80 - Floor plans illustrate:
D - **Two-dimensional aspects of a building.**
- 81 - The best flooring for a high traffic area in a rental apartment kitchen is:
D - **Vinyl**
- 82 - What are the decorative blocks under the eaves of a building?
C - **Dentil trim**
- 83 - Which dye method colors the fabric after it is constructed?
D - **Piece**
- 84 - Stucco, wrought iron, and red tile roofs are characteristics of what architecture style?
D - **Spanish**
- 85 - Which American building style is frequently a small cottage with formal (symmetrical) balance, clapboard siding, and windows made with a number of small panes of glass?

D - Cape Cod

- 86 - The roof style that looks like a barn is:
A - **Gambrel**
- 87 - A kitchen which has a free-standing work area is:
D - **An island kitchen**
- 88 - Chairs with cabriole legs ending in ball and claw feet are typical of what style?
A - **Chippendale**
- 89 - Which door is the most appropriate for a closet?
C - **Bifold**
- 90 - Identify the chest of drawers which is mounted on tall legs:
A - **Highboy**
- 91 - The kitchen work triangle:
C - **Helps to evaluate the efficiency of the kitchen.**
- 92 - A window that swings in or out when it is cranked open is a:
A - **Casement window.**
- 93 - Which statement regarding the U-shaped kitchen is true?
C - **The U-shaped kitchen has the most cross traffic.**
- 94 - A twill weave fabric will give the appearance of a:
A - **Diagonal line.**
- 95 - Which FIBER would produce the most durable carpet?
C - **Nylon**
- 96 - Wicker furniture was part of which furniture period?
A - **Victorian**
- 97 - Which paint is the most durable?
A - **Semi-gloss**
- 98 - The chair which is characterized by stick legs and a spindle back driven into a plank seat is called a:
D - **Windsor chair**
- 99 - The house in which architectural style typically is symmetrical with chimneys on either side and plantation-like is a:
D - **Georgian**
- 100 - Which of the following is made of wood shavings, wood scraps and sawdust mixed together and pressed under heat?
B - **Particle board**
