Dear Parent or Guardian:

Your student is enrolled in the General Financial Literacy or Adult Roles and Financial Responsibility Course required for Utah High School Graduation. The standards for this course include:

- Financial Goals and Planning
- Income and Career Planning
- Money management
- Saving, Investing, and Retirement

A key ingredient for your student's successful learning is parental/guardian involvement. Research shows that students learn a considerable amount of their financial knowledge and habits from their parents/guardians. Parental involvement with the assignments and activities in this course will increase student understanding and help them grow to be independent, self-supporting individuals who make responsible, informed decisions.

Protecting student/family privacy and identity is essential. Consistent with Utah Law, Section 53A-13-301, students will NOT be asked to provide any personal/family information or financial data.

However, to make the course concepts meaningful to the students, they may be asked to develop individual financial plans, or budgets or to otherwise make personal application of financial principles. For example, with parent/guardian permission or assistance, a student may gather and analyze information about buying a car of his/her choice, set up an ongoing personal budget, or identify a spending plan for the prom or other event.

Please contact me with questions you may have about this course (refer to contact information above). The curriculum and material used in the course are available for your review by appointment. I hope to make this a meaningful and applicable course.

School Year: _____

I grant permission for my student, _____ (printed) to complete activities and assignments in the General Financial Literacy or Adult Roles and Financial Responsibility Course using personal application of financial principles. I understand that my student will not be required to disclose any private or family financial data.
