### CHILDREN AND THEIR PLAY

Playtime is a preschooler's fun time, but it is also work and consumes the largest part of his/her life. Toys and play activities, when thoughtfully planned, can be extremely valuable for the young child. Toys and activities provide a variety of experiences to enhance a child's development. For each item below, list as many different play activities, games, and/or toys that would assist a child in that area.

1. Large Muscle Development:
