	NATURE AND NURTURE
Please watch the video "Nature and Nurture." It discusses whether a person is affected by nature (heredity) or nurture (environment). As you watch the video, consider the following:	
1.	How does heredity affect the baby? Give examples of heredity traits or characteristics.
2.	How does environment affect a baby? Give examples of traits and influences.
3.	What was your reaction to the studies completed on identical twins?
4.	Write at least two paragraphs regarding your feelings concerning the education of very young children. Identify some positive and negative ideas.
