**AT HOME ACTIVITIES FOR CHILDREN WITH DISABILITIES**

Many times, a child with disabilities gets special attention at child care, school, and in other educational settings. However, it is important that the child's parents are also involved in providing learning for the child at home. Parents need activities that are inexpensive and something they can do without neglecting their other children. In the space below, plan two activities that parents could do at home with a child with disabilities.

ACTIVITY #1--Name of activity \_\_\_\_\_

Purpose of activity \_\_\_\_\_

What equipment and supplies are needed to complete this activity?

---

---

How do you make or prepare this activity?

---

---

How would you present this activity to children?

---

---

---

ACTIVITY #2--Name of activity \_\_\_\_\_

Purpose of activity \_\_\_\_\_

What equipment and supplies are needed to complete this activity?

---

---

How do you make or prepare this activity?

---

---

How would you present this activity to children?

---

---
