

## LAUNDRY EXPERIMENT

Name \_\_\_\_\_ Period \_\_\_\_\_

MATERIALS REQUIRED: Two 4" x 4" squares of cotton fabric

### DIRECTIONS:

1. Trace 100% cotton samples to establish size. Mark one with an "A" and one with a "B" on a piece of paper pinned to the fabric swatch.
2. Wash "A" in hot water and dry in a hot dryer.
3. Wash "B" in cold water and lay flat to dry.
4. Compare size and shape after each swatch as been laundered.
5. Write a paragraph to evaluate differences. Tell why.
6. Attach samples to this page to turn in.
