

COMPETENCY #5: Explore careers in grooming related professions.

CONCEPT

There are many career opportunities in the "grooming" industry. Knowledge of these opportunities will help students make better career choices.

TEACHING STRATEGIES

Using current career information you may already have or can obtain from your school career or guidance counsellors or libraries, discuss the possible careers that are related to "grooming".

ACTIVITIES

- Divide the class into small groups. Provide each group with information on a different career related to personal grooming. Have the students report back to the class on the information given them.
- Assign individual research reports on one career of interest to each student related to personal grooming. Students will present an in depth report to the class.
- Invite professionals to speak to the class regarding their career. Include information of training, best and worst points of the job, general salary information, etc.
