

**COMPETENCY #8:** Create a personal fashion statement board.

**CONCEPT:** Discovering our own sense of fashion is important for our self esteem, future job opportunities, and social acceptance. Making a personal fashion statement board will give students a hands on approach to visual critique of fashion decisions.

**ASSIGNMENT: - FASHION BOARD**

Each student will make a Fashion Board that will represent all the information they have learned concerning their personal fashion. The board will have the following requirements:

1. The board itself will be a 14"x16" matte board (choose a size appropriate to your classes needs and resources). Matte board is available in art supply stores.
2. The board can be any color, and will be outlined with a solid black line 1/4" in from the edge. This will frame the board.
3. Personal information to be illustrated on the board:
  - . Favorite colors in clothing
  - . Illustrate fashion personality(ities) that best describe you.
  - . Indicate body type and the best way to dress for that type.
  - . Add samples of colors, fabrics, trims, etc. that you like to wear.
  - . Add pictures from magazines that would look best on you and fit your personality.
4. Picture of yourself can be added.

**NOTE:** This is **not** to be a cluttered collage of pictures and other items. It should be a neat representation of the students personal fashion.

**\*\*OPTIONS\*\*** Display fashion boards in showcases or around the room for other students to view. These could also be displayed at the end of the year fashion show.
