Check Yourself: Liquid Measuring Cup

1. Look at these three cups. Which one is best for measuring liquids? Put an X under that cup.

   a.          b.          c. 

Why is that the best kind of cup to use?

2. What cup amounts are shown on a liquid measuring cup? What ounce amounts are also shown? Write those amounts next to each line. (Two are done.)
Check Yourself: Liquid Measuring Cup

3. These pictures show the right way to measure liquids. Tell how to do each step.

Step 1:

Step 2: MEASURING FOR COOKING.

Step 3:

4. Suppose you're making a cake. What could happen to it if you don't measure correctly?
