

Name _____ Hour _____

ARCHITECTURAL STYLE OR ARCHITECT REPORT

1. Choose a style of architecture, a time period, or an architect that interests you.
2. Using a minimum of two references (encyclopedias, architecture books, magazine articles), research the architectural style, time period, or architect and take some exciting notes and draw some pictures. You must include the bibliography in your report.
3. Write a story about the style you have chosen. Write as if you lived in that style of home, went to church in that style of church, or lived during that period. Include some basic information about the style or architect and current events which were occurring that influenced the architect or style, and why you like the architect or style.
4. Organize your notes, then write neatly in ink or type your report.
5. Include a sketch or picture of your architectural style or the style of the architect.
6. This paper should be included with your report as the cover page.
7. Be prepared to give a 2-4 minute oral summary of your report to the class (slides, videos and photos are encouraged).

My chosen topic: _____

Due date: _____
