FABRICS CROSSWORD

ACROSS CLUES:

1. Fibers that come from plants or animals
6. Finished goods in a salable state
8. Variation of the twill weave in which the wale changes direction at regular intervals to produce a zigzag effect
9. Place where fabric is woven
10. Narrow edge of woven fabric, usually of stronger yarns or denser construction than the body of the fabric
11. Threads running through the length of a piece of fabric
13. Tightly woven jacquard fabric with a warp effect in the figure which is raised to give a puffed appearance
14. Weave in which each warp thread is passed over two or more filling threads, with the interlacing advancing one thread on successive warps--has wales or diagonal lines
15. Method of dyeing in which a pattern is covered with wax, the fabric is then dyed, producing a white design on a dyed background
16. A roller is etched with the design, then the cloth passes between the roller and cast-iron cylinder to print the design
18. A conjunction meaning "in case that" or "whether"
22. Adjective meaning "immediately preceding or following"
24. Dye is added to loose fibers
25. A construction method used to produce carpet
28. A yarn produced by twisting two different yarns together to form a single yarn
32. Rubbing off of color from woven or printed fabrics
33. Plain, tightly-woven cotton fabric with fine yarns and processed with a glazed finish
36. Made from skins and hides of animals
37. Two or more different staple fibers are spun together into a single yarn
38. Threads running width-wise across a piece of fabric
40. A small sample of a piece of fabric
41. A closely-woven pile fabric produced in both a crush and cut design
43. A heavy jacquard fabric (usually multicolored) used only for upholstery
44. A plain weave cotton cloth characterized by a sheen ranging from dull to bright

POSSIBLE WORD CHOICES:

Chintz	Combination	Crocking
Filling	Herringbone	If
Leather	Mill	Naturalfibers
Next	Piecegoods	Polishedcotton
Rollerprinting	Selvage	Stockdyed
Swatch	Tapestry	Tufting
Twill	Velvet	Warp

DOWN CLUES:

2. Amount of warp and filling per square inch of fabric as it comes from the loom
3. The make-up of the yarn content of any given fabric
4. Design is applied to a screen, then color is forced through the screen to print the design
5. Fabric that has been pressed with engraved rollers to give a "water marked" effect
6. Formation of fiber fuzz balls on fabric surface by wear or friction
7. A jacquard woven fabric with floral or geometric patterns created with different weave effects
12. Weave consisting of one thread over and one thread under
15. Weave that is a variation of the plain weave (where two or more filling yarns are passed over and under the same number of warp yarns)
17. A weave achieved by passing paired warp yarns over and under filling yarns in a figure-eight configuration
19. Wool fibers interlocked permanently by applying heat, moisture, agitation, and pressure to fibers
20. A piece of fabric usually less than 3 yards long
21. Fabric that has been processed by dyeing, printing, applying of special resins and finishes, etc.
23. A woven design made with the aid of a jacquard head which may vary from simple to elaborate
26. Weave that produces smooth, lustrous fabrics because of the long floats on the surface of the fabric
27. Manufactured, scientifically produced fibers used in the fabric
29. Multicolored jacquard woven fabric with floral or figured pattern emphasized by contrasting colors
30. A finish that is applied to fabrics making them oilproof and waterproof
31. Continuous strand of fibers
34. A fine, plain, nubby weave fabric, usually with a sheen on its surface
35. Printing process seldomly done commercially, as it is done by hand and is therefore too costly and slow
39. Fabric is passed through the dye solution
42. Short fibers that are twisted to make a yarn
