Name _____
Period _____

UNIT HOME ASSIGNMENT FOR _____ DUE _____

Through the semester, your son/daughter will be required to prepare a food item at home from some of the specific FOOD GROUPS that we will be studying. During the specific class labs, students are not always given the opportunity to plan, prepare and evaluate a recipe all by themselves as they work in groups and divide the responsibilities. These home assignments will give the student another experience to practice techniques that they learn in class. It will give the family an opportunity to benefit from their cooking and will help the student to become more efficient in their own kitchens.

There will be some specific recipes given or they may choose their own recipe. The student needs to include the recipe used, evaluate the recipe and return back by the assigned DUE DATE with parent/guardian signature, comments if any and please note that they cleaned up after themselves.

Food Item prepared _____
(Include recipe if not given out in class)

Student's Evaluation: (Yes or No)

_____ 1. Did you assemble all ingredients first?
_____ 2. Did you clean up the kitchen after preparing the food?
