1. Total CASH spent _____
2. Total amount charged to CREDIT cards _____
3. Total of CASH and CREDIT spent _____
4. Interest Payment (use the work space below to figure this number) _____
5. Total Cost _____

WORK SPACE

Calculate your interest payment here.

A. $\frac{\text{_____}}{\text{(amount charged)}} \times 1.5 = \text{_____}$ divided by 100 = $\frac{\text{_____}}{\text{(interest per month)}}$

B. $\frac{\text{Interest per month from line A}}{\text{X 3 months needed to repay}} = \frac{\text{record this number on line 4}}{\text{ }}$
