

# Animal Cards

<p>Cricket</p> 	<p>An insect that chirps by rubbing its wings together. It jumps and has 6 legs. It has a hard body; an exoskeleton.</p>
<p>Skunk</p> 	<p>This mammal sprays its attacker with a stinky, eye stinging liquid. Its fur is black with a white stripe. It is an omnivore.</p>
<p>Scorpion</p> 	<p>This insect eats spiders and small mammals by poisoning its prey with a stinger on the end of its tail. Its exoskeleton is red and it lives in the deserts of Utah.</p>
<p>Jackrabbit</p> 	<p>This mammal lives in the deserts of Utah. It has very tall ears and a small bushy tail. It eats grass and shrubs.</p>

<p>Bald Eagle</p>  A detailed black and white line drawing of a bald eagle. The eagle is shown in profile, facing right. It has a white head with a small tuft of feathers on top, a sharp, hooked beak, and large, powerful wings with many feathers. Its legs are short and thick, ending in sharp talons.	<p>This bird has a white head and sharp claws. It dives from the sky to attack its prey, such as rabbits, small birds, or fish.</p>
<p>Mountain Goat</p>  A black and white line drawing of a mountain goat. The goat is standing and facing right. It has a thick, shaggy coat of fur, a beard, and small, curved horns. Its legs are sturdy and end in hooves.	<p>This mammal has short horns and fluffy fur. It lives in the mountains and its hooves help it to climb steep, rocky slopes.</p>
<p>Snake</p>  A black and white line drawing of a snake. The snake is coiled in a loose 'S' shape, facing left. It has a long, slender body with a pattern of dark, irregular spots or bands. Its head is raised, showing its eyes and a small tongue.	<p>This reptile has no legs and slithers on the ground. Some can unhinge their mouth to swallow their prey whole.</p>
