

Name _____ Date _____

Measuring Cups Capacity Experiment

- **Group leader:** In the following table, write the name of the item that will be measured.
- **Materials manager:** Next, choose the type of tool you will measure with (cup, pint, quart, gallon).
- **Recorder:** Estimate how much the item will hold (using the measurement tool).
- **Speaker:** Last, measure the item and write the correct capacity in the table.
- **Helper:** Help students who need help recording.
- Alternate positions after each row.

Item Measured	Measurement Tool	Estimated Capacity	Measured Capacity
