

CONSTRUCT YOUR OWN BED

Name: _____ Period: _____

Trace the pattern for a bed, given below, on poster board. Cut out and assemble.

Draw onto the bed the elements you desire from the lecture on Furniture. What material are the headboard and footboard made from. Is it hard wood, soft wood, veneer? What type of joints does the bed have and where? What is the frame made from and like? How many coils does the mattress have? Does it have support springs? What kind of metal is incorporated in the bed? Is there any plastic in the bed design?

When completed with the style of the bed, color it to match the description. Create a cover of your choice of fabric (add pillows if you desire.)

On a separate piece of paper, list and describe all the materials used in the design.

Grade:

Use and recognition of bed materials (15 pts.)

Creativity (5 pts.)

Aesthetic appeal of the finished bed (5 pts.)
