

LAYOUT OF A PRESCHOOL

Objective: Students will be able to successfully incorporate information learned into a product of an actual arranged preschool room.

Materials needed:

1. Power point projector or printout of power point presentation.
2. Accompanying work paper.
3. Scissors, glue sticks

Introduction:

How should we arrange the existing preschool. Any ideas?

What would be important to include?

What color scheme could we use?

Lesson: Go over power point presentation. Then hand out work paper to be completed alone or with a partner. Teacher must closely supervise and advise as they work.

Evaluation: Successful completion of planned preschool room.

Follow up activity: Arrange the existing preschool room as class has planned together.
