Students will duplicate the top half of each SHIELD.

As each student studies the shields, have them try to interpret the emotions that could be communicated through the rock art.

What is the artist trying to tell you?

What emotions are you feeling now?

Students will finish drawing the bottom half of the SHIELDS expressing the emotions experienced.

Activity 3:

Teacher will remind students that SHIELDS were used by warriors to protect. We are going to build a personal SHIELD to help protect us from negative emotions.

Students will identify an emotion they may have difficulty coping with.

Students will research healthy ways to deal with the negative emotion.

Each student will draw a pictograph of these healthy ways on the personal SHIELD. In what way does the the SHIELD defend psychologically and emotionally to keep you centered? Ask students to distinguish between physical and psychological factors using symbols.
