ALLOWING STRUGGLES IN GOAL SETTING

GUEST SPEAKERS

Have the students identify a person in the community or someone within their families who has accomplished a goal in spite of obstacles. Hold a class vote to identify their favorite three stories. Invite the three people to class to share their stories and receive a Certificate of Recognition from the class.

Have students use their own paper or pass out the worksheet "Target Your Short-Term Goals."

Assign students to set a goal that they can reach in 7 days. Have the students write the goals and the

related short-term goals needed to reach the final one. Have them seal their papers in an envelope that they will open in 8 days. After 8 days, have the students evaluate how they achieved their goals; have them also identify the barriers in achieving their goals and discuss it in class.
