

UETN and STRATA Networks complete the Daggett Fiber Project

Broadband now extends to remote  
Daggett County, Utah.

- UETN and STRATA Networks completed the project on budget and on time.

- More than 67 miles of fiber was installed.

▼ Fiber now spans the Flaming Gorge Dam.

Workers overcame the challenge of weather and solid rock.

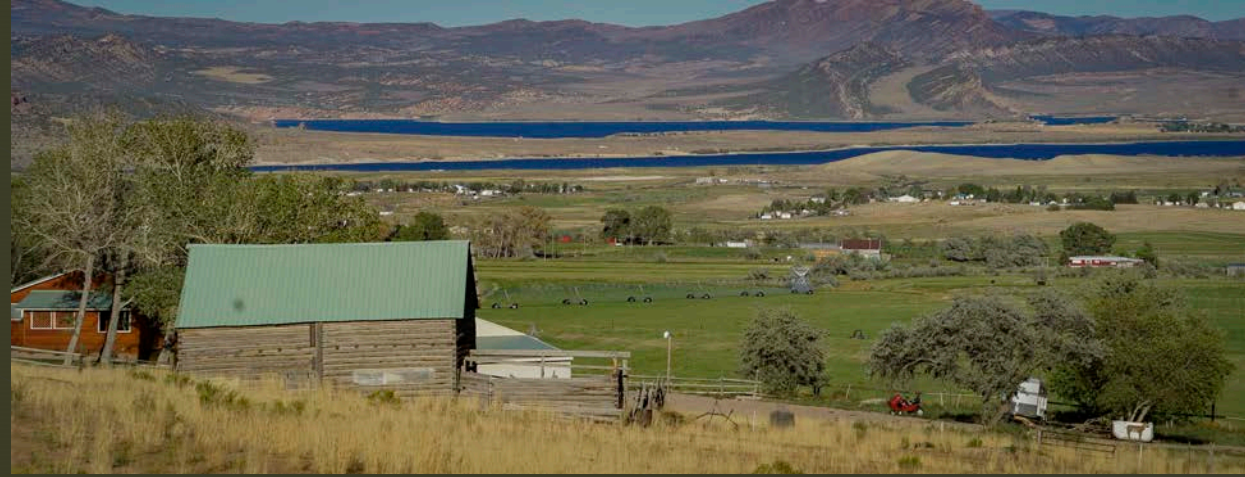

STRATA Networks workers slept in trailers at the Flaming Gorge Resort five days a week for over a year.

Education, health care and commerce  
all benefit from the project.

Healthcare is now available thanks to broadband telehealth.

► K-12 students now have high speed access to online education.

Community leaders celebrated the accomplishment in Manila, Utah on September 2, 2020
